BENEFITS

Protects the brain:

Reduces cognitive deterioration thanks to its content of vitamin C, B vitamins, and phosphorus.

Helps treat throat and ear conditions:

Due to its anti-inflammatory and antiseptic capacity.

Benefits kidney health:

Has a diuretic effect that helps eliminate toxins and prevent fluid retention

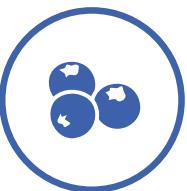

HOW TO PRESERVE FRUIT

- Store it in a cool place and keep the husks intact until they are ready to be consumed. They can last for **5 to 7 days** this way.
- To store them in the **refrigerator**, it's recommended to use an **uncovered plastic container** or a perforated wrapping to allow the fruit to breathe
